Meals-in-a-Jar Dehydration Cookbook & Layering Guide

EOTWSG | MODULE 01 | REV 2026-09-22 | STATUS: SOURCE-VERIFIED ONLY

Authored by: EOTWSG

REVISION LOG

Date	Revision	Description
2026-09-22	REV 2026-09-22	Front-matter standardization: cover block, revision log, action card, and local fields added; source normalized to house Typst dialect.

ACTION CARD

Use this guide to these recipes are dry-meal assembly guides for properly dehydrated or freeze-dried ingredients. They are not canning recipes. Use clean, completely dry ingredients and packaging rated for dry food storage. Add the oxygen absorber only immediately before sealing when the food and package are appropriate for that method.. Carry one copy in the master box and one copy in the working binder.

Step	Do this now	Completion check	Stop / escalate when
1	Confirm this copy is current: check the module ID (01) and REV date on the cover.	Module ID and REV noted on the working copy.	If the REV predates 2026-09-22, replace this copy before use.
2	Work through the Use and Limits section against your household's actual people, conditions, and equipment.	Section completed with household-specific entries; gaps flagged.	If a required capability is missing, flag it in the binder and resolve before the next drill.
3	Record completion, date, and any deviations in the working binder; schedule the next review.	Binder entry dated and filed.	If the household situation changes, re-run the guide.

PURPOSE AND ACTIVATION

Purpose: These recipes are dry-meal assembly guides for properly dehydrated or freeze-dried ingredients. They are not canning recipes. Use clean, completely dry ingredients and packaging rated for dry food storage. Add the oxygen absorber only immediately before sealing when the food and package are appropriate for that method.

Activation triggers: utility failure, evacuation order, sudden service uncertainty, or a planned verification drill. This module is usable on its own; linked module IDs preserve the shared decision order from the master index.

Shelf-Stable Dry Meals — Layering, Rehydration, and Cooking

Use and Limits

These recipes are dry-meal assembly guides for properly dehydrated or freeze-dried ingredients. They are not canning recipes. Use clean, completely dry ingredients and packaging rated for dry food storage. Add the oxygen absorber only immediately before sealing when the food and package are appropriate for that method.

CRITICAL FOOD-SAFETY WARNING

Improper canning or anaerobic packaging can result in botulism, a potentially fatal illness. Use only current, research-tested USDA/NCHFP procedures for the exact food, jar size, pack style, processing time, pressure, and altitude. Inspect every seal. If a jar or pouch is swollen, leaking, spurting, moldy, oddly colored, or smells abnormal, do not taste it; discard it safely.

Layering Rule

Place heavier, larger pieces at the bottom and powders above them. Keep seasoning powders away from the seal area. The sequence below is bottom-to-top. Leave the manufacturer's recommended headspace and verify the finished package is fully dry before sealing.

Recipe Cards

FREEZE-DRIED BEEF STROGANOFF

Container: 1-quart wide-mouth Mason jar or suitable dry-food pouch.
Layer bottom to top: 1.5 cups freeze-dried ground beef; 0.33 cup stroganoff gravy mix (flour, beef base, garlic); 0.5 cup freeze-dried mushroom slices; 2.0 cups dried egg noodles; add the absorber only if the complete package is dry and compatible.
Rehydrate/cook: Remove absorber. Bring 4 cups water to a rolling boil in a skillet. Add contents and stir thoroughly. Cover, reduce heat to low, and simmer 20–25 minutes until noodles are tender. Add water in small increments only if needed for texture.

CHEESY SLOPPY JOE HOT DISH

Container: 1-quart wide-mouth Mason jar or suitable dry-food pouch.
Layer bottom to top: 1.5 cups TVP or freeze-dried ground beef; 2 Tbsp dehydrated onions plus 4 Tbsp Sloppy Joe seasoning; 0.5 cup freeze-dried sweet corn; 0.5 cup dehydrated cheddar cheese powder; 1.0 cup elbow macaroni.
Rehydrate/cook: Remove absorber. Combine contents with 4.5 cups hot water. Allow a 10-minute cold soak, then bring to a boil. Cover and simmer 20 minutes, stirring occasionally.

HOMESTEAD HEARTY BEEF STEW

Container: 1-quart wide-mouth Mason jar or suitable dry-food pouch.
Layer bottom to top: 1.0 cup freeze-dried beef chunks; 1.0 cup freeze-dried sliced carrots; 0.25 cup dehydrated diced onions; 0.5 cup freeze-dried celery; 3 Tbsp beef seasoning mix; fill the remaining space with dehydrated potato slices.
Rehydrate/cook: Remove absorber. Pour contents into a large pot with 8 cups boiling water. Stir to dissolve seasoning. Cover tightly and simmer 25–30 minutes until potatoes rehydrate.

FIELD VEGETABLE & BEAN RICE BOWL

Container: 1-quart wide-mouth Mason jar or suitable dry-food pouch.
Layer bottom to top: 1.0 cup instant or fully cooked-and-dried rice; 0.75 cup freeze-dried black beans; 0.5 cup freeze-dried corn; 0.25 cup dehydrated peppers and onions; 3 Tbsp tested dry seasoning blend.
Rehydrate/cook: Remove absorber. Add 4 cups boiling water, cover, and stand 12 minutes. Simmer 5–8 minutes if rice or beans remain firm.

Package QA Checklist

- Ingredients are fully dry and cool
- Jar/pouch is clean, intact, and correctly sized
- Layer sequence is recorded on the label
- Seal area is free of powder
- Package date and batch ID recorded
- Rehydration water and time are on the label
- Allergen notes are recorded
- Storage location is cool, dry, and dark
- Package is inspected before use
- Discard criteria are understood

SAFETY BOUNDARIES

WARNING - MODULE LIMITS

Do not perform medical, electrical, or structural procedures beyond this guide's stated limits. When in doubt, stop and consult qualified professionals. This guide is a preparedness aid, not a guarantee of safety. Follow current instructions from local emergency management and authorities.

- This module directs specific actions; those actions carry the safety limits stated above. Do not improvise beyond them.
- Use nonviolent de-escalation and withdrawal as the primary security response.
- If conditions exceed the household’s capability, escalate to professional responders.

LOCAL FIELDS AND RECORDS

Use these printable fields and keep them at the front of the working binder:

Field	Fill-in
