PKG-011 · Master Library Collection

Sample pages from: EOTWSG Standardized Survival Library (135pp master)

These are unaltered pages from the actual guide, taken from the current fixed library (Stage 4, 2026-10-30). Every EOTWSG guide opens with an action card, states its safety boundaries up front, and ends with printable fields for your household.

EOTWSG STANDARDIZED SURVIVAL LIBRARY

CONTROLLED FIELD GUIDES, TEMPLATES, AND VERIFICATION TOOLS

EOTWSG | MASTER LIBRARY | REV 2026-08-26 | STATUS: SOURCE-VERIFIED ONLY

Use the Master Index to select the module that fits the immediate need. Each guide functions independently, but linked module IDs preserve a shared decision order.

LIBRARY MODULES

- 00-INDEX — SURVIVAL LIBRARY MASTER INDEX
- 01-MASTER — END OF THE WORLD SURVIVAL GUIDE
- O-01 — 72-HOUR BLACKOUT BLUEPRINT
- O-02 — 15-MINUTE EVACUATION CHECKLIST
- C-01 — EMERGENCY COMMUNICATIONS PLAN
- W-01 — WATER SOURCE RECONNAISSANCE AND COLLECTION
- W-02 — OFF-GRID WATER PROCUREMENT AND TREATMENT MATRIX
- W-03 — HOUSEHOLD WATER RESERVE AND DISTRIBUTION LOG
- FD-01 — EXPANDER PANTRY AND NO-POWER FOOD PLAN
- E-01 — OFF-GRID DIY BATTERY BANK PLANNING GUIDE
- M-01 — TRAUMA AND TRIAGE MEDICAL-BAY INVENTORY
- K-01 — UNIVERSAL SURVIVAL KIT TEMPLATES
- G-01 — EVERYDAY CARRY AND HOUSEHOLD READINESS AUDIT
- L-01 — OFF-GRID HOMESTEAD INFRASTRUCTURE BLUEPRINTS
- L-02 — LOCATION RESILIENCE EVALUATION SCORECARD
- N-01 — LOW-PROFILE URBAN TRAVEL PLAN
- T-01 — SURVIVAL GEAR MAINTENANCE AND SAFE MODIFICATIONS GUIDE
- S-01 — EMERGENCY SHELTER AND EXPOSURE CONTROL
- P-01 — OFF-GRID HOUSEHOLD SAFETY AND DE-ESCALATION GUIDE
- P-02 — CIVILIAN DRONE-SAFETY AND INCIDENT REPORTING PLAN
- X-01 — HOUSEHOLD ROLES, MUTUAL AID, AND KNOWLEDGE TRANSFER
- R-01 — FIRST SIX MONTHS RESILIENCE CALENDAR
- R-02 — LONG-SEASON FOOD AND LIVESTOCK PLANNING
- R-03 — DEPENDENCY PERIMETER AND SYSTEMS AUDIT

SURVIVAL LIBRARY MASTER INDEX

EOTWSG | MODULE 00-INDEX | REV 2026-08-26 | STATUS: SOURCE-VERIFIED ONLY

AUTHORED BY: EOTWSG

ACTION CARD

Use this Master Index to find, activate, and verify any EOTWSG module in a printed archive. Carry one copy in the master box and one copy in the working binder. Update local fields and run a verification drill after any change in household, supplies, or location.

STEP	DO THIS NOW	COMPLETION CHECK	STOP / ESCALATE WHEN
1	Locate the printed master copy and working binder.	Master copy and working binder are physically present.	If either copy is missing or wet, stop and restore from off-site duplicate.
2	Identify the module ID needed (use the stable IDs listed in CROSS-REFERENCES).	Module file name and ID noted on a slip and placed in pocket.	If you cannot find the module by ID, escalate to the archive manager or restore from digital backup.
3	Copy Action Card for that module to the pocket ring.	Action Card is laminated or protected and on the pocket ring.	If no Action Card exists, stop — draft an Action Card before use.
4	Complete local fields (names, dates, locations, contact info).	All local fields filled; print date entered.	If critical local details are unknown (medical, evacuation), escalate to household decision-maker.
5	Schedule a verification drill or supervised practice.	Drill date recorded in EOTWSG MODULE G-01 and on local calendar.	If team cannot commit to a supervised practice within 30 days, escalate to household head for resourcing.

PURPOSE AND ACTIVATION

Purpose: Give a compact, printable master index to find and activate any EOTWSG module quickly. Activation triggers: utility failure, evacuation-in-place, sudden service uncertainty, or planned archive revision. This index is usable on its own for locating and prioritizing modules; it also links directly to the larger blueprint library by stable module IDs.

RESOURCE CHECKLIST

Print-friendly checklist — keep one copy with the master archive:

- Master archive (heavy paper) in sealed sleeve
- Working binder with P1 Action Cards
- Pocket-ring with priority Action Cards (EOTWSG MODULE O-01, EOTWSG MODULE W-02, EOTWSG MODULE F-01, EOTWSG MODULE H-01, EOTWSG MODULE M-01, EOTWSG MODULE N-01)
- Revision log notebook and pencil
- Local map and household profile (filled)
- Waterproof copies of critical modules referenced below
- Off-site duplicate (digital or paper) stored separately
- Calendar entry for next supervised practice / drill

ACTION SEQUENCE

Follow these steps in order. One physical action per step. After each major cluster, confirm the observable completion check.

Prepare the archive

1. Gather master file box and working binder at the primary living area.
2. Verify print dates on master and working copies; note any older-than-12-month items for review.

Observable completion check: All printed items present and dated on the revision log.

Localize modules

3. Open each P1 module and fill the household/local fields (names, addresses, evacuation points).
4. Print Action Cards for EOTWSG MODULE O-01, EOTWSG MODULE W-02, EOTWSG MODULE F-01, EOTWSG MODULE H-01, EOTWSG MODULE M-01, EOTWSG MODULE N-01 and insert them in the pocket ring.

Observable completion check: Local fields completed and pocket ring contains required Action Cards.

Distribute and protect

5. Place master copy in a sealed sleeve and store off fuels, heat, and direct sunlight.
6. Put the working binder near the primary living area and a waterproof pocket copy in an alternate location (car or trusted neighbor).

Observable completion check: Master and working copies stored in separate secure locations.

Training and verification

7. Create a drill schedule and log it in EOTWSG MODULE G-01 (Inventory & Work Log).
8. Conduct the first supervised practice of one P1 procedure in daylight within 30 days.

Observable completion check: Drill recorded in EOTWSG MODULE G-01 with participants and results.

Maintenance and review

9. After any major household change (move, new medical need, birth, death), update local fields and schedule a follow-up drill.

10. Review the revision log quarterly and replace worn Action Cards.

Observable completion check: Revision log entries current and Action Cards intact.

Bold safety warnings (placed before relevant steps)

WARNING — WATER TREATMENT: Do not attempt water-treatment procedures beyond the methods described in EOTWSG MODULE W-02 and the labeled directions on treatment products. If source contamination by fuel, industrial chemicals, or radioactive material is possible, mark as DO NOT USE for drinking and seek professional testing. (See EOTWSG MODULE W-01, EOTWSG MODULE W-02.)

WARNING — ENERGY EQUIPMENT: When locating or inspecting battery systems, solar gear, or generators, follow manufacturer instructions and local code. If you observe swelling, smell, heat, or smoke from batteries or electronics, move people away and contact emergency services. Do not attempt live electrical work or raw-cell repairs. (See EOTWSG MODULE E-01 and EOTWSG MODULE B-23/EOTWSG MODULE B-24 in the library.)

WARNING — FIRE OR OPEN-FLAME: When reviewing fire, cooking, or heating modules, ensure proper ventilation and an external extinguisher. Do not use unvented combustion devices indoors. If smoke or fumes occur, evacuate and call emergency responders. (See EOTWSG MODULE F-01.)

SAFETY BOUNDARIES

- This index directs you to specific modules; those modules carry controlled safety limits. Do not perform medical, electrical, or structural procedures beyond the module's stated limits.
- Do not treat or use water suspected of fuel or toxic-chemical contamination for drinking, cooking, or hygiene.
- Electrical and battery tasks must be done per manufacturer instructions and by qualified personnel when required. No DIY raw-cell, panel backfeed, or live-panel work.
- Use nonviolent de-escalation and withdrawal as the primary security response; do not create traps or take offensive actions.

LOCAL FIELDS AND RECORDS

Use these printable fields and keep them at the front of the working binder:

FIELD	FILL-IN
Household head	_____
Alternate lead	_____
Primary address	_____
